

POLAR MAX RECESSED IN-CEILING MOTORIZED RECESSED ALR/CLR® SCREEN

The Polar Max Tension Recessed Series is an In-Ceiling projection screen that features a tensioned ambient/ceiling light rejecting (ALR/CLR®) material.

Polar Star® is an award winning, ISF-Certified front projection screen material that enhances picture brightness, color, contrast, and black/white levels for use in a bright or dark room. The screen uses a tab-tensioning system to achieve optimal flatness with surface tension uniformity. A full IR and RF remote control kit is included along with a wireless 12-volt projector trigger. The retractable design provides a big screen performance without dedicating wall space to exclusively one purpose, enabling the viewer to enjoy greater versatility with a disappearing screen when not in use.

FEATURES & BENEFITS

- Polar Star® 1.3 Gain Ambient and Ceiling Light Rejecting (ALR/CLR®) front projection material
- Multi-layer matrix uses reflective and absorbent micro-particles eliminate up to 85% of ambient light
- High-contrast diffusion layers (Enhance black levels)
- Angular reflectivity negates light scatter artifacts
- See the projected image exactly as the Film Director intended: ISF Certified for accurate Color Points, Dynamic Range (black/white levels), Color Temperature
- 4K/8K Ultra HD and HDR Ready
- Black masking borders absorb projector overshoot
- Tension tabs provide uniform surface tension
- Available in diagonal sizes 103"/115"/133" in 16:9

DESIGN & INSTALLATION

- "Disappearing" in-ceiling design for multi-purpose media room applications
- Design permits below or above ceiling access to accommodate installations from within the room or ceiling
- White enameled aluminum housing is durable and moisture resistant for structural integration
- Internal Infrared and Radio Frequency receivers with IR/RF remotes included
- Standard 5-12-volt projector trigger to synchronize screen operation with the projector's power cycle
- Fast-acting tubular motor with superior weight tolerance
- Plenum Rated for installation in air handling spaces
- 5-year limited manufacturer's warranty
