

**RePure to Debut IAQ, Water Wellness Solutions**

From the team that brought you Pure365, RePure is a new company that will be offering health and wellness solutions for residential applications made available to consumers through custom integration professionals. RePure will be showcasing its healthy home app, delivering important air quality data that enable homeowners to identify, track and remove harmful contaminants from their environment in the LaunchPad alongside its solutions partners: Airthings (IAQ Monitoring), Airly (Outdoor Air Monitoring), Intellipure and Cosatron (Air Purification), and Elite Water (Water Purification). RePure co-founder and president Michael Don Ham will be hosting a session titled, “Why the CI Channel is Primed for Wellness and the Healthy Home Market” on Friday, September 30, 9 to 10:30 a.m. in Room D171. **Somfy TaHoma RTS, ZigBee Gateway**

TaHoma is an IP-to-RTS and ZigBee gateway that can control up to 40 channels of Radio Technology Somfy (RTS) or ZigBee connected products at a competitive price for a broad array of interior and exterior applications. The TaHoma allows you to create scenes to link connected devices and activate them with just a click on your smartphone. The TaHoma app adjusts the shades to the exact degree of openness needed to create the perfect amount of light. Control pergolas, awnings, hurricane shutters, and the range of Radio Technology Somfy (RTS) or ZigBee connected products, too.

Integrate a Somfy motorized system through the TaHoma interface to access a full suite of validated drivers from your favorite control platforms like Control4, Crestron Home, Savant, Josh.ai, URC, RTI, Elan, Extron, QSC, and more. [somyfsystems.com/Tahoma](http://somyfsystems.com/Tahoma)

**Outdoor Cabling a Focus for Platinum Tools & TechLogix Network**

NSI Industries brands’ Platinum Tools and TechLogix Network will spotlight outdoor cabling solutions. Platinum Tools will feature its new weatherproof RJ45 coupler housing (p/n 744), and TechLogix will feature its MOFO ST Series. “Ideal for use on outdoor cable extensions, our new rugged housing protects almost any RJ45 coupler from dust and splashes,” says Sean Rothermel, Platinum Tools product manager.

The expanded MOFO line now includes the new ST armored series. ST cables, available in lengths from 5 to 100 meters, feature stainless steel micro-armor and a tactical weather-proof jacket, providing reliable HDMI connectivity in harsh environments.

**EPV Screens Twilight Series of Screens**

EPV Screens has introduced its outdoor rated Twilight series screens. Designed for residential outdoor spaces the Twilight Electric uses a professional grade matte white screen material with a wide viewing angle that accommodates a choice of applications. The Twilight Twin features a front and rear projection surface supported by a tab-tension system. The products come with RF remote and wireless 12-volt trigger options to coordinate the screen’s drop and rise with the projector’s power cycle. EPV Screens add the screens are IP33 Rated for outdoor installation and usages protecting them against water spray less than 60 degrees from vertical.
