FEATURES & BENEFITS

- Twin Front/Rear flexible projection material provides superb image clarity either side
- 0.8 Gain with a wide viewing 150° angle allows the audience to see a clear and bright picture from any angle
- Standard 4-side black masking borders (front side only) absorb projector overshoot while enhancing visual contrast
- Compatible with Standard, Short, and Ultra-Short Throw Projectors
- Designed for outdoor use without compromising its home theater visual appeal
- Dynamic indoor home theater quality with the durability of an outdoor product
- 5-year limited warranty

CONTROL SYSTEM & INSTALLATION

- Rust resistant aluminum floating brackets allow flush wall/ceiling installations to be perfectly centered
- Eyebolts included for a suspended installation
- Tab-tension design provides uniform flatness over the entire screen surface for use with standard, short-throw and UST projectors
- Radio Frequency remote for long range operation without line of sight required
- Wireless 12-volt projector trigger included to synchronize to the projector's power cycle for drop/rise operation
- IP33 Rated for protection against water spray less than 60 degrees from vertical
